PROFILE

Computer Engineering student with experience in web development and a strong interest in technology. I work with frontend technologies such as HTML and CSS, and have foundational backend knowledge in JavaScript, PHP, Python, and MySQL. I enjoy learning new tools, including AI technologies to optimize processes and improve productivity. I also have experience in computer maintenance, system configuration, and working with Windows and Linux environments. I am curious, self-taught, and focused on creating functional solutions.

LANGUAGES

- Spanish: Native
- English: B2 – Upper Intermediate

SKILLS

- Problem solving
- Logical thinking
- Teamwork
- Effective communication
- Self-taught & proactive
- Punctuality & commitment

OBJECTIVE

To develop professionally in the technology field, especially in projects related to web development, automation, and technical support. I aim to apply and expand my knowledge in programming, databases, and modern tools while contributing efficient solutions and continuously learning new technologies.

TECHNOLOGIES & LANGUAGES

Frontend

- HTML / CSS (intermediate-advanced)
- JavaScript (basic-intermediate)

Backend

- PHP (basic)
- Python (basic)
- C / C++ (fundamentals)

Bases de Datos

- MySQL (intermediate)
- SQL queries, joins, table creation, relations, basic indexes

Otros

- Git & GitHub
- Linux / Windows
- Use of AI for development and productivity

EDUCATION

B.S. in Computer Engineering

01/2023 – Present

University Center of Exact Sciences and Engineering (CUCEI) – Guadalajara

- High School: Colegio Unión México
 - Graduated with honors
 - Awarded Best Student Medal
- Web Development Full Course
 - HTML5, CSS3, JS, AJAX, PHP & MySQL (82.5 hours)
